## PERSONAL DETAILS

- Total Experience 2 Years 8 Months
- Current Location Bengaluru
- Date of Birth Jun 05, 1999
- Gender Male
- Marital Status Single / Unmarried

## SKILLS

- Supervised Learning
- Tableau
- Aws
- Statistical Analysis
- Deep Learning
- Data Structures
- Hypothesis Testing
- SQL
- Python
- Machine Learning
- Computer Vision

## TECHNICAL SKILLS

- Python
- ETL
- Machine Learning
- Statistical Data Analysis
- SQL
- Deep Learning
- Product Analysis

## LANGUAGES KNOWN

- English

## COURSES & CERTIFICATIONS

- Foundation In Machine Learning

## PROFILE SUMMARY

I have over 2 years of experience working in data science,ETL tool. Currently, I work as Data Engineer, improving products and services for our customers by using advanced analytics, standing up ETL and analytics tools,creating and maintaining models, and onboarding compelling new data sets. Technologies: data science, machine learning, cloud computing, Python, ETL Tools, GCP , Deep Learning, AWS, Data Analysis using SQL, Exploratory Data Analysis, Statistical & probabilistic analysis.

## EDUCATION HISTORY

### Graduation

Course	B.Tech/B.E.( Computers )
College	Lovely Professional University (LPU)
Year of Passing	2021
Grade	7.05/10

### Class XII

Board	CBSE
Medium	English
Year of Passing	2017
Grade	70-74.9%

### Class X

Board	CBSE
Medium	English
Year of Passing	2015
Grade	80-84.9%

## WORK EXPERIENCE

Jul 2023 to Present

### Data Analyst at Amber

data-driven insights that fuel business growth: that's what I deliver as a results-oriented data analyst. With a deep understanding of statistical analysis, data visualization, and predictive modeling, I am skilled at extracting meaningful patterns from complex datasets. By translating data into actionable recommendations, I empower organizations to make informed decisions and seize opportunities. My expertise spans SQL, Python, R, and

## PROJECTS

### **Customer Purchase Trend Analysis Using Python, 61 Days**

This project was developed to do exploratory data analysis for one of the retail corporations. ?? I have used Central limit Theorem for customer purchase analysis where I have analyzed the customer category spending in how much range. ?? I have used python as well as Pandas and NumPy libraries for Central limit Theorem Application

### **Disease Detect, 730 Days**

I have developed a web-based platform where user can share their disease symptom and get details about cure tips. ?? I have used Angular for frontend, Natural Language Processing for text preprocessing and FastAPI for serving text processing as service in frontend.
