Sagemaker

Agenda

— What is Sagemaker

→ How to train & deploy ML models

POC

Train a model ———> ① EDA

② Train a simple model

③ Test deployment

Sagemaker ———> Jupyter notebook on
Cloud

———> Aws

———> Competitors

Google —> Vertex ai
Azure —> Azure ML
databricks.

With Sagemaker

———> Create - notebook

—> Train a model.

—> Deploy.

Sazemella + Apache SPorl2

ML mode ⟶ ✗ ⟶ general public
